Linutop Announces Its New Operating System 4.0 and Kiosk Software for linutop 2 & 3 and now compatible with PCs!

New, small and secure Operating System, Linutop OS 4.0 with kiosk Software offers real benefits to professionals by saving maintenance and deployment costs.

Paris, France – September 28th, 2010 – Today Linutop releases version 4.0 of its Ubuntu-based Operating system (OS), which is optimized for its miniature, energy-efficient fanless PCs and compatible with i386 PCs.

The new Linutop OS 4.0 is based on the latest long term service Ubuntu version 'Lucid Lynx', delivered with ready-to-use Linux software, including Firefox, Open Office, and VLC Media player.

Linutop OS 4.0 new Settings Menu and Kiosk Configuration allows a quick and simple configuration for a professional specific use, in secured public internet access, digital signage, network monitoring, thin client use, mini server and cost efficient desktop in virtualized environments.

Linutop OS 4.0 Main features:

- Linutop Lock Security The system can be locked into read only mode, preventing alterations by viruses or other mishaps. Its ability to recover its initial state at each startup also minimizes maintenance costs.

- Internet Kiosk Allows professionals (internet cafes, hotels...) to configure their homepages in full screen with toolbar or not, to block certain websites or to lock designated websites.

- Display Kiosk Allows professionals to easily (with drag n drop) configure playlist including time and order and support JPEG, URLs, folders and video files.

Key Benefits of the Linutop OS 4.0 are:

- **Compatibility -** Compatible with i386 PCs hardware.
- **Security -** full lock up of the system by password
- **Small -** Only 700Mo with all configured software and languages.
- **Energy efficiency -** Designed for minimal processing power.
- **USB Back-up -** The entire OS can be saved and booted on a USB key.

"Our customers appreciated Linutop's low maintenance system. Now, we're giving them the tools they need to deploy this solution on other hardware platforms. Compared to other providers of kiosk and digital signage solutions, Linutop is less expensive and has minimal maintenance costs," said Frédéric Baille, CEO of Linutop.

Linutop OS 4.0 is available NOW!:
A USB-Key or on line installation are available on linutop store: http://www.linutop.com/shop/index.en.html
